

 NOOK IMAGERY

3D SCANS!

Using Matterport Technology
For Construction, Engineering, & Architecture

Create an immersive 3D
digital twin of your project

Collaborate with contractors –
share current site conditions

Perform remote inspections
and walkthroughs

- Reduce construction costs by saving time & site visits
- Virtually reach difficult to access areas like crawl spaces, trusses, and ceiling beams
- Document location of plumbing, electrical, & framing before finish work
- Replace 1000s of photos by capturing all imagery and data at once - eliminate the need to arrange and label photographs
- Integrate into AutoCAD, 360 BIM, Revit
